

**Some  
masks  
are  
designed  
to  
drop down  
on your  
chest.**

It's new. It's unique. It's a respirator that is quicker and easier to take off than any other brand!

Designed to hang conveniently on your chest.

The respirator you wear when you're not wearing a respirator.

This must be a great sales point.

But we just don't get it.

**Our  
masks  
are  
designed  
to  
stay  
on your  
face.**

Sundström respirators are designed to stay on the job.

They are masks that remain where they are supposed to be: on your face.

The respirator you wear, full stop.

If you are serious about breathing protection, there's one thing you should do:

Get it off your chest.
