

Reaching new heights in breathing protection.

The SE400AT-2 positive pressure respirator is perfectly suited for all types of emergency response personnel.

In combination with our CBRN-tested SE-SHIELD pressurized suits, the respirator is the ideal protection device for all warm-zone operations.

- Protection factor 2000+
- True positive pressure of more than 400 l/min
- Loud and clear voice communication
- Light weight (3.5 lbs with batt)
 - Battery lasts 4 hours at medium work
 - NIOSH approved
 - Acts as negative pressure respirator if power off
 - Protection against warfare agents, chemicals, dust, gas, biological materials and more
 - Used by defense forces, response teams, police, fire departments, emergency squads world wide
