

respirator (ˈrespəˌreɪtə) *n.* 1. an apparatus for providing long-term artificial respiration. 2. Also called: gas mask, a device worn over the mouth and nose to prevent inhalation of noxious fumes.

# A word about breathing.

Sundström half and full face respirators are used in a wide variety of work places. Fitted with the correct filters, a Sundström mask provides excellent breathing protection.

A wide range of accessories, such as hoods and voice communication devices, lets you build the perfect configuration for your particular work.

Use Sundström breathing protection. Available from S.E.A. distributors and resellers.
