BATTERY ANALYSER

Know your batteries BETTER!

Thorough analysis:

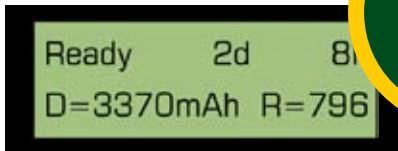

Determines the charging and discharging resistance in the battery, then gives a PASS or FAIL, or warns of borderline battery condition

Effective battery management:

- Tests, conditions and recharges
- Best way to maintain a battery in peak condition: multiple charge/discharge cycles
- Signals problems at an early stage
- Identifies batteries that are building up resistance
- Displays progress and battery status
- Long-term storage: reconditions battery automatically every 30 days
- Accepts both standard B1 batteries and the new optional low-resistance B2 model

Insert the battery and forget about it

The display says it all

Power supply and cables

Handy rugged storage case
