

Provides ventilation, safety and comfort to AlphaTec® reusable gas-tight suits

- Provides the AlphaTec® reusable gas-tight suit with ventilation, for comfort and increased safety in case of a sudden puncture on the suit
- Large thumbwheel for a good grip and easy adjustment
- 2, 30 or 100 l/min or zero/off position
- Made from chemical resistant materials
- Fits all SCBA brands
- Available for type T (non-encapsulating) and CV/VP1 (encapsulating) suits

Regulating valve **type T** – for connection to breathing apparatus outside the suit.

Regulating valve **type CV/VP1** – for connection to breathing apparatus inside the suit.

PRODUCT INFORMATION

	AlphaTec® REGULATING VALVE
Function	Provides the AlphaTec® reusable gas-tight suit with ventilation, for comfort and increased safety in case of a sudden puncture on the suit.
Design	Large thumbwheel for a good grip and easy selection of flow rate. For zero/off position and 100 l/min flow, a two-hand grip is required to prevent accidental loss of ventilation or excessive air consumption. Available for type T (non-encapsulating) and CV/VP1 (encapsulating) suits.
Material	Main outer parts are made from glass fibre reinforced PPS (polyphenylene sulphide), characterised by extremely high chemical resistance and strength as well as heat resistance. Inside parts and thumbwheel are made from PA (polyamide).
Flow Rates	Ventilation air flow rates of 2, 30 and 100 l/min.
Hose Connection	CEJN 221 male (nipple) for connection to the SCBA. NOTE: Requires a separate connection hose to connect to the SCBA.
Colour	Black with white AlphaTec® logo.
Standards & Approvals	Certified as part of an AlphaTec® gas-tight suit.
